EXPERIENCE

Accenture

Bengaluru, India

Developer Analyst

Dec 2023 – Present

- Migrated a monolithic B2B platform to a headless microservices architecture using **Spring Boot** and **Java**, improving scalability by **40%**.
- Reduced API latency on a high-traffic B2C site by optimizing **PostgreSQL** queries and implementing caching strategies, improving response time by **35%**.
- Built robust multi-region data migration pipelines using **Docker** and **AWS S3**, reducing manual workload by **85%**.
- Enhanced order processing workflows through asynchronous **RESTful APIs**, reducing transaction failures by **25%**.
- **Mentored 2** junior developers and improved system stability through continuous code reviews, refactoring, and adherence to agile practices.
- Participated in architecture discussions, led sprint planning, and collaborated with global teams to roll out features impacting **1M+** B2C users.

Tata Consultancy Services

Gurugram, India

SAP Commerce Cloud Engineer

Jul 2021 – Nov 2023

- Led SAP Hybris upgrade from **v2005 to v2211**, managing deployment across QA and production environments to ensure system compatibility.
- Designed and implemented authentication and session management using **Spring Security**, improving login throughput by **30%**.
- Integrated third-party payment gateways using secure **REST APIs**, ensuring seamless checkout experience for users.
- Refactored legacy modules to modular components in **SAP Hybris**, improving maintainability and onboarding speed.

PROJECTS

Scalable E-commerce Platform | *React, Spring Boot, Docker, Kafka*

- Built a production-grade full-stack platform with product, cart, order, and admin modules using **Spring Boot** and **React**.
- Implemented asynchronous messaging across services with **Kafka**, improving modularity and fault tolerance.
- Packaged services into **Docker** containers and managed them with Docker Compose.

AI Voice Assistant | *Python, Google Speech Recognition, React*

- Developed an AI bot using **Python** and **Google Speech Recognition** to convert voice input into actionable commands.
- Built a frontend in **React** and integrated it with **Flask** backend using RESTful APIs.
- GitHub: AI-assistant

TECHNICAL SKILLS

Languages: Java, Python, JavaScript (React), SQL, HTML/CSS, Bash

Frameworks: Spring Boot, React, Node.js, FastAPI, Flask, SAP Hybris

Tools: Git, Docker, Kafka, PostgreSQL, Firebase, JIRA, Azure DevOps

Cloud/DevOps: CI/CD, Containerization, Google Cloud (Basics)

Other Skills: System Design, Agile, Problem Solving, Microservices

CERTIFICATIONS

SAP Certified Professional - Developer (SAP Commerce Cloud) — Nov 2024

EDUCATION

Global Institute of Technology

Jaipur, India

B.Tech. in Computer Science and Engineering — GPA: 8.0/10

Aug 2017 – Sep 2021
